# What is Eldershare?

Eldershare is **doctors-managed shared residences** with **live-in caregivers**, designed for older but generally active adults. Residents live in spacious, shared condos or apartments that have been outfitted for seniors, where all of their daily needs are met, both physically and socially.

Eldershare offers single or twin shared rooms (two people) with en-suite or shared bathrooms depending on the residence. There is only a maximum of 6 residents per unit, with some residences having only 3 single-occupant rooms.
